Morton's head was beaten to a jelly, apparently with the blunt end of a hatchet. Chief Desmond could not be found about the Four Courts after the announcement of the finding of the body, but it is reported that Shepard made a confession to him shortly before noon, and that he was then taken to the spot and pointed out the grave. All hat is definitely known is that he was taken away by the Chief.

by the members relative to the Alabama frauds. J. M. Whitely, the editor of a Populist organ in that State, made a lengthy address on the subject, with interesting details. He was followed by Gen. Weaver, who made a short speech.

Gen. Weaver then retired from the chair temporarily, and his place was filled by Fred. J. Close, private secretary to Gov. Liewelling of Kansas.

The report of the Committee on Educational Plans, which practically recommended the creation of a system of township, county and State club, or lyceum organizations similar to those of the older parties, and under the direction of a National Committee of one from each State. was then presented. They wrangled over this question for some time, and it was finally amended by striking out the provision for a new National Committee and referring the plan to the existing State Committeeses.

MRS. STRIKER HITS OUT.

Mrs. Striker of Kansas then rose to a question of personal privilege, and upon being recognized by the chair was called to the platform amid deafening cheers, where she made a strong address in behalf of the women of the People's party. She stated that until the party agreed to give to women all the rights of citisenship the party would never be successful. She appealed to the People's party not to consider the woman question as one of the non-essential ones.

The report of the Educational Committee as finally adopted, amid much wranging The report of the Educational Committee was finally adopted, and much wrangling, as amended.

C. A. Hunter of New York then spoke upon the condition of the People's party in his State as being seriously affected by the socialistic tendencies of the labor classes, whom he charged with having forced upon the People's party of that State such ideas as drove many thinking men from voting for a ticket tinctured with so much socialism. He also urged that the People's party bring their National convention East in 1886 in order to educate the people in that section as to their intentions.

Mrs. Striker again took the floor and moved that when the National Committee sent out literature on the Omaha platform they be instructed to also send out literature on woman's suffrage. The motion was carried amid cheers.

Mr. Stockwell, the editor of the Non-Conformist of Indianapolis, gave an object lesson as to the amount of wheat it took in 1860 as compared with the present day to pay the interest on Government bonds.

MRS. INGALLS' ADDREES.

The chair then announced that he had received the card of Mrs. Ingalls, President of the St. Louis W. C. T. U., who requested the privilege of addressing the meeting and a law pleasure of the conference. The majority voted their approval, upon which mrs. Ingalls mounted the platform and in a few brief words extended the greeting of the W. C. T. U. to those present, saying that she knew the party were engaged in the cause of uplifting humanity and advocating woman's equality, as was also the organization which she herself represented. She closed her remarks by wishing the People's party god Tweed.

OMAHA PLATFORM ADVOCATED.

The following resolution was then introduced by Thomas F. Byron of Iowa:

Resolved, That it is the sense of this conference that the People's party in carrying on its campaigns of education in the various States embrace in their work the whole of the Omaha platform.

The resolution was referred under the rule to the National Committee.

Meets and Adopts Plans for the Coming Campaign.

At a conference of the State Committee composed of about 125 of the leading Populists of the State, a plan was formed fo work during the coming campaign. The work during the coming campaign. And meeting was called to order by State Chairman A. Rozell, after which Dr. J. C. Kelly of Brookfield was elected chairman and J. Weller Long of Kirksville secretary of the meeting. State Chairman Rozell answered a cail to outline the work done by the party in the last campaign. Then followed a general discussion relative to the meeting of the party, and a plan was outlined the party in the last campaign. Then followed a general discussion relative to the
needs of the party, and a pian was outlined
by Frank Richey of St. Louis for the purpose of strengthening party organisations
and raising campaign funds for circulating
reform literature and keeping lecturers in
the field. The committee expects to begin
the Presidential campaign at once.

The plan, as proposed by Mr. Richey, is
to request contributions of 310 each from
all the leading Populists in the State, by
which means a fund of several thousand
dollars is expected to be raised.

The marriage of City Councilman Alfred Vallat, who is also a member of the real estate firm of Percy & Vallat, and prominent in reel estate and political circles, occasioned considerable surprise to his friends in St. Louis, and there were many surmises as to who was the lady Mr. Vallat married. SUICIDE'S LETTER.

Found by George Cramond While Out Hunting.

George Cramond, who lives at 405 East Espenschied street, was out hunting on last Thursday and about 4:30 p. m., when about three-quarters of a mile south of the Carondelet Ferry landing, on the Illinois side, he found an envelope on the face of which was written: "The finder of this note will please read contents and act according. Good-by."

Inside on a page taken from a small memorandum book was written the following:

I am tired of life and pennilees. I will now end my sufferings. You will find my body not far from this note. I hope my friends will forgive me for this rash act.

150 Georgia street, Memphis, Tenn. On the other side of the page is the following postscript: "Please notify Wm. Doran of 150 Georgia street, Memphis,"

The writing was all done with lead pencil, and is rather well executed. The police to whom Mr. Cramond turned the note over, are at a loss to know what its object is, as Mr. Cramond said he made a diligent search of the whole neighborhood where the note was found and falled to find any trace of the supposed suicide.

The body of young Henry J. Rice, a stud-ent in the Massachusetts Institute of Tech-nology, who was found dead at his lodg-ings, in St. Botolph Hall, Boston, yesterday afternoon, has been taken from Boston, and will reach St. Louis on Sunday night. It is in charge of Mr. Charles L. Swarts, of the Werthelmer-Swarts Shoe Company, in this city, who is a relative of the young man, and who was in Boston on business. The funeral will be from the residence of The funeral will be from the residence of the young man's parents, Mr. and Mrs. Jonathan Rice, 3733 West Pine boulevard, on Monday afternoon.

"We have received less information about the young man's death than has been telegraphed to the press," said Mr. Daniel Eiseman, of Rice, Stix & Co. "Our information came from Mr. Swarts, and, at the request of the family, he has made the arrangements to bring the body on. Henry is the son of Jonathan Rice, a member of this firm, and was the nephew of Henry Rice, rangements to bring the body on. Henry is the son of Jonathan Rice, a member of this firm, and was the nephew of Henry Rice, head of the house. The young man graduated from the Manuai Training School here two years ago last June, and has been in the Boston school for two years. I don't know that he was preparing for the profession of a chemist, but he had a decided fondness for that branch of science, and was making of it somewhat of a specialty. We know nothing of the causes that led to his death. He had a incurrous home, indugent parents, devoted friends and the certain prospect of a fortunate start in life. His parents and brother and sister are all in the city, and are, of course, prostrated by this unexpected sorrow."

The dispatches from Boston state that at luncheon yesterday he seemed more than usually melancholy, his mental depression attracting the notice of Michael Dwyer, manager of the St. Bottolph Hall cafe, and the latter tried to draw young Rice out and to encourage him to forgetfulness of whatever was weighing heavily upon his mind.

At 2 oclock, his room-mate, named Hallman, returned to the lodgings and found young Rice lying on the floor. There was a pistol wound back of the right ear, and the weapon (a bull-dog revolver of large caliber) lay by his side. He left not a line that would indicate that he heat taken his life. When found, it was supposed that there was still breath in the body, but the surgeons who were summoned could not bring about the slightest external sign of life. The fact of his death was telegraphed to Rice, Stix & Co., and the members of the firm immediately wired Mr. Swarts.

At the home of young Rice the greatest gloom prevailed, as bright and encouraging letters had only recently been received from him. They firmly believe that he was fooling with his revolver and accidentally shot himself.

Mr. Mott grew still more angry. "You have no right, sir, to speak to me in such a manner. I have my rights as a citizen just as well as you, and I have the right to denounce here the base charges allowed to be made against me."

Chairman Lexow rapped his gavel violently on the desk.

The Fight Was Becoming Interesting,

the Husband Caused the TroubleThe Manager's Statement.

Mrs. Alice Pennington, a big dashing blonde, is inclined to be rather gay, while her sister-in-law, a charming little brunette, is rather reserved. The difference in their dispositions caused a coolness to spring up between them. Mrs. Alice claimed it was due to envy and jealousy, and she accused her sister-in-law with meddling in her private affairs. Christmas eve Mrs. Alice was detained at the store, but a different story was carried home to her husband by the sister-in-law, at least so it is said. Of course this brought matters to a climax, and after brooding over her troubles Thursday night Mrs. Alice came down to the store Friday morning with a determination to give her sister-in-law a good tongue lashing for her alleged meddlesome tactics.

THEY COME TOGETHER.

The pair came together behind one of the cloak-racks, while the store was full of customers. Loud and harsh talk commanced the trouble, and before anyone could interfere, the dashing blonde attacked the little brunette. A hair-pulling, catch-as-catch-can contest followed, until the manager of the establishment rushed to the spot and separated the beiligerent females. The little brunette had all she wanted and was perfectly willing to retire, but her blonde sister-in-law was out for trouble and it required some delicate diplomacy to pacity her. During the melee the store was almost emptied of its prospective customers. The manager realized this fact after he had separated his puglistically-inclined sales-ladies and it made him very warm under the collar. The result was both the Mrs. Pennington got their walking papers, although the little brunette was back at work again, as usual, this morning. When seen by a Post-Dispatch reporter, the manager of the store admitted the rouble and was sorry it had gotten outside the establishment. "Both women," said he, "made exhibitions of themselves, but we suppressed them as soon as we could, and were in hopes it would go no further. Tom Bradshaw Hit a Doctor at Hot Springs.

HOT SPRINGS, Ark., Dec. 29—Dr. Bess, a well-known Georgia, physician, is in a serious condition at the Arlington Hotel, and if he dies there will be a Coroner's inquiry and possibly a St. Louisan charged with responsibility for the death. The doctor is suffering from erysipelas due to catching cold in a wound in his forehead. This wound he sustained at the hands of Tom Bradshaw, a former member of the St. Louis House of Delegates. The doctor became incensed at a member of a party of which Bradshaw was one, and had drawn his knife to attack the gentleman, when Bradshaw struck him with a wine bottle. Bradshaw was not a party to the dispute and interfered to prevent what he thought might be a murder. The injury he inflicted on the doctor was slight in itself and the serious consequences now threatened are due to subsequent neglect.

the Ryan Commission Co. and while he ad-mitted having struck Dr. Bess in the Arthe Ryan Commission Co, and while he admitted having struck Dr. Bess in the Arlington Hotel at Hot Springs about a month ago, he positively denied that it amounted to anything serious. The story as told by him of the affair is as follows: About a month ago he, in company with his brother-in-law. Frank Ryan, the well-known grain merchant of this city, paid a visit to Hot Springs. One evening soon after their arrival they were sitting at a table in the bar-room of the Arlington in company with Dr. Bess and Jimmy Laughlin, the bar-tender of the hotel, drunking a bottle of wine. Laughlin soon ordered another bortie on his own account, but which Dr. Bess, who was somewhat intoxicated, insisted on paying for. This caused a dispute between the doctor and Laughlin, which led to both indulging in rather uncompilmentary remarks. Suddenly, and without the least warning, Dr. Bess pulled a large knife from his pocket and before anyone could stop him, he made a lunge with it at Laughlin, narrowly missing him. Before the doctor could renew the attack. Bradshaw says, he ricked up the empty wine bottle from the table, with which he dealt him a stunning blow on the head, cutting a big gash over his right eye. The blow dazed Besse, and he was ansisted to his room, where, after the blood was washed away and his wound dressed he was put to bed. The next day, however, Bradshaw says the injured man was up and about the hotel, and aside from the cut and a slight swelling on the side of his head, resulting from the blow, he was as well as ever. Bradshaw also claims to have received a letter of apology from Dr. Bess for his conduct that evening, which also stated that he bore him no ill-will for striking him.

Mr. Bradshaw states positively that Mr. Ryan's recent trip wae in no way connected with the agair, and that he went down there a few days ago solely for the benefit of his healith.

streets, will have to bear the greater part of the expense.

"These streets should be widened and improved," said Mr Monfett, "and the city should stand the whole expense, as it is a public improvement which not only benefits the property owners in the district but the public at large I am much in favor of the original plan to take up the whole of the two blocks in front of the new Union Station and convert what is not used of it for street purposes into a park. If this were done I have parties who would erect \$1,000,000 fire-proof building on Pine street, opposite the park, facing the depot."

Mr. Monfett estimates that the cost of carrying out the park enterprise to the city would be \$700,000. He has new drawings prepared by Mr. Pitzman, showing the present plan of improvement.

REAL ESTATE NOTES. REAL ESTATE NOTES.

The Nicholis-Ritter Realty and Financial Combany sold one foot of ground in Westminster place, east of Boyle avenue, from S. J. Guyre, who holds the title to the property, for a syndicate, to Mrs. Fannie E. Carroll, for \$185. This one foot is in addition to the 46 feet on which her house is built. The one foot is to give a passageway on the west of the house. This leaves but 30 feet out of \$60 feet of ground that the Nicholis-Ritter Realty and Financial Company purchased for a syndicate two years ago, having paid \$65 a foot for the ground when purchased.

WINSOR'S FRIEND

Says He Thinks Winsor Is in the City of Louisville.

MT. VERNON, Mc., Dec. 29.—A. G. Morse, here in jail charged with horse stealing, says that he and George A. Winsor went to Wagner, I. T., about the last of October over the Iron Mountain railway to assist in capturing the Cook gang and started back to St. Louis about the last of November, and says he thinks George, A. Winsor is in Louisville, Ky., at present visiting a young lady. Morse says he knew nothing of the Verons train robbery, and says he thinks he was at Logansport, Ind., about the 12th of November. There is another man with him here who refuses to give his name.

After dinner some time I laid down awhile and must have gone to sleep, for when I woke up and tried to rise I couldn't. Finally I did manage to get up and then I fell to the floor. The door was locked, but I set it open and came out. I don't know what hour it was."

It may have been that Lizzie was struck Monday and did not come to until Christmas, as she has no idea of what day it is. The pillow of the bed was covered with blood and so were her underclothes. Her dress was not bloody scarcely any, which indicates that she was undressed, or partially so, when the blows were struck. If she was struck on the bed the police cannot account for the great quantity of blood about the boat.

SOLD WHISKY TO BOYS.

Lose Their Licenses.

John Gage of 4ill Gratiot street, Albert Eichmeyer of 476 Papin street and Wm. Schultz of 4258 Papin street, the three boys who were the coimpanions of John Mc-Keliops, the 18-year-old boy who got drunk last Wednesday and was found dead under a lime box near Boyle avenue and Gratiot street, were broaght before Assistant Prosecuting Attorney Johnson about 11:30 a. m. and questioned as to who bought the whisky they drank and where they got it.

The boys said that young McKellops beught four bottles of whisky at Charles Hoch's saloon, Gratiot street and Boyle avenue, and that the other four bottles were got at Edward Mayers' saloon, 435 Gratiot street, by Gage. After hearing this evidence the boys were sent home and told to return on Monday morning with their fathers. Assistant Prosecutor Johnson said that he would make further inquiry into the case, and would probably issue a warrant against the saloonneepers on the charge of mansiaughter. In the meantime Excise Commissioner Bell is reading the evidence of the inquest and will in all probability revoke their licenses.

In ther words, the New York banks have

of recovering the gold is well in operation, and that if it is continued there will be another issue within the next thirty or forty days.

Treasury officials are more disturbed than they care to admit over the action of the New York syndicate in distributing the bonds not disposed of in the market among the various subscribers, and the reported explanation that this course was deemed advisable because of the distrust of the Administration's financial policy. Since that announcement was made more than \$1,500,000 of gold has been withdrawn from the reserve. No less than \$1,250,000 was withdrawn yesterday, and of this amount \$700,000 will be sent abroad by to-day's steamer. That the situation is fraught with much peril is obvious. When an issue of bonds was decided upon in January last the reserve had not touched so low a point as it has since then. But the Government after re-establishing the reserve by that bond issue was able to maintain it for almost three months. The Government managed to keep the reserve bace \$100,000,000 less than two weeks after the proceeds of the last bond issue was paid in. Since it was again invaded the reserve has dropped steadily until yesterday it stood a trifle over \$87,000,000. This showed a net loss of gold to the Government in seventeen days of about \$25,000,000. This showed a net loss of gold to the Government in seventeen days of about \$25,000,000. This showed a net loss of gold to the Government of upward of \$30,000,000 of the yellow metal.

That another bond issue will be necessitated before March 1 is generally understood at the Treasury, and in view of the prevailing conditions it may be floated with some difficulty. It is believed that if bonds were issued to-day the Government could not negotiate them at within one-half of 1 per cent of what it obtained for the last of the Government could not negotiate them at within one-half of 1 per cent of what it obtained for the last will be necessitated before March 1 is generally understood at the Treasury, and in view of the pr

CHICAGO, III., Dec. 29.—At precisely 2 o'clock this morning the vestibuled train, "The Dixie Hummer," pulled out of the Dearborn station of the Chicago and Eastern Illinois Railway and began one of the most marvelous races against time that has ever been undertaken in the history of railroadine. It will have 733 miles to travel. most marvelous races against time that has ever been undertaken in the history of railroading. It will have 733 miles to travel. It will have to speed through a goodly section of Eastern Illinois, over a large area of Indiana, through the blue-grass region of Kentucky, over the Cumberland Mountains of Tennessee and along the foot-hills of the Piedmont Plateau, in Georgia, before it reaches its destination, and will have just fifteen hours and thirty minutes in which to complete its task successfully.

The train is due at Terre Haute at 5:50 a. m., at Evansville at 8:05, at Nashville at 11:30 and at Atlanta at 5:30 p. m. Engines will be changed at Terre Haute, Evansville, Nashville and Chattanooga. To make up for all losses of time, "The Dixie Hummer" will have to make an average speed of pretty nearly sixty miles an hour. As the train will be in the hands of competent men, and as it will run over some of the finest stretches of railroad track in the world, there is little doubt that it will arrive at its destination on time.

The train will be carried over the following roads, which form the most direct route between Chicago and the Southeast: The Chicago and Eastern Hilmois, the Evansville and Terre Haute, the Nashville, Chattanooga and St. Louis and the Western and Atlantic. The entire equipment is furnished by the Chicago and Eastern Hilmois, the Evansville and Terre Haute, the Nashville, Chattanooga and Eastern Hilmois, the Evans and Atlantic. unsel for the Shoe and Leather Bank, ha Street Jail, where with assistance of one of the bank's book-keepers and Samuel C. Seeley, a minute examination of the bank's books are being made, with a view of obtaining evidence on which some of the stolen money can be recovered from the Baker estate. In addition to helping to straightening out the accounts by correcting the false entries, Seeley has practically made a deposition giving the details of his own crime and of Baker's complicity. The fact has been developed that Baker did not deposit a cent in the bank during the last three years while he drew out thousands, and the whole amount of his deposits since the stealing began did not exceed \$5.000.

The story that Seeley had made a statement implicating a number of other persons was denied by everyone interested. Seeley will be taken to the King's county penitentiary on next Wednesday.

Rescue of William Leavitt and Two Young Ladies From Freezing.

SHELBYVILLE, Ind., Dec. 29.-William Leavitt, accompanied by Miss Susie Maple and Miss Mary Mitchell, started Thursday and Miss Mary Mitchell, started Thursday night from their homes south of this city for Bengal, ten miles distant, to attend an entertainment. Just after they had started the snow storm began, but they continued their journey. Leavitt was unacquainted with the country, however, and in the blinding storm became lost.

Yesterday morning at 2 o'clock Henry Oltmann was awakened by a man knocking at his door. On opening it there was Leavitt, almost senseless and hardly able to give an account of himself. Oltmann finally discovered his condition, and carried him and the rigid forms of the young women into the house. They were unconsclous and remained so. They may recover, but it is thought amputation of their legs will be necessary. They had driven to another part of the country, thirty miles from their intended destination.

G. A. WINSOR MISSING.

Left St. Louis Nov. 21 and Has Not Been

Where are G. A. Winsor and John Morse! The former's mother, Mrs. Emma Ames Winsor of Indianapolis, and the latter's wife, Mrs. John Morse of 1445 South Third wife, Mrs. John Morse of 1445 South Third street, are very anxious to know. Winsor, who is 22 years old, came here from his home in Indianapolis last July to look for work. He got a position woth the Iron Mountain under the name of Will Richardson, and becoming acquainted with Morse went to board at his house on Third street. On November 21 Winsor and Morse left the city, telling the latter's wife they were to become private detectives on the Iron Mountain. Winsor has never been heard from since, and the only word received from Morse was to the effect that he had been jailed at Mount Vernon, Mo., for horse stealing, Morse's absence left his wife in destitute circumstances, and she wrote to Mrs. Winsor, asking her to pay the three weeks' board bill that her son owed. Mrs. Winsor, thinking Mrs. Morse was a fraud, sent the letter to Chief Harrigan. The police found Mrs. Morse at the Provident Association headquarters, in destitute circumstances. She said she thought it likely that Winsor was with her husband under an assumed, name. The police say that the missing Morse is none other than "William Nicholson," who was fined by Judge Morris last September for going on a spree with a woman named Bessie Wilson.

"BI-PARTISAN" POLICE CONTROL

It is well enough to have both p ented in the Police Board tha the party in control of the police for the party in control of the police force cannot use it for partisan purposes without the knowledge of the other party. If Mayor Walbridge will attend closely to his duties as a member of the Police Board, he can easily prevent or expess to public reprobation any partisan use of the force by the commissioners appointed by the Governor. This is a better check on corrupt and one-sided manipulation of the Police Department than he appeared from such a "but he appeared from such a but he a but he appeared from such a b than is to be expected from such a "bi partisan Police Commission" as it is proposed to ask the Legislature for. The astounding revelations of police corruption brought out by the Lexow Committee are thus explained by the New York World:

World:

Corruption was invited when the politicians devised and the people accepted a "bi-partian commission" to control the police force. That device thrust politics into the police management and fastened it thera. It led legically and purpossly to deals and dickers between party bosses. It treated premotions and assignments in the force as perquisites. It made spoils of public protection and "pantatas" of police omclais. The wonder is not that the force became corrupt under such a system, but that the public could have expected any other result.

That was a system under which neither party was responsible for police abuses and under which the bosses of both parties were enabled to unite their "pulls" for plunder and to "divy" the proceeds in secrecy and safety, regard-less alike of the Republican authorities tles in New York City. With the New York example before our eyes, the cry for a bi-partisan control of the police will hardly succeed at Jefferson City this

ELECTION FRAUD CASES.

In discussing the election fraud case in yesterday's Post-Dispatch Council-man Ferriss admitted the powerlessness of the Citizens' Safety Committee to do more than the Circuit Attorney would permit.

In the Grand-jury investigation, as he expressed it, the committee's work stopped outside the door. It could do no more than offer evidence to be utilized by the Grand-jury, but the practical work of presenting it was in the hands of Mr. Zachritz. As to the trial of the cases, Mr. Ferriss said: "We think that it is entirely proper for us to try to make the work of the Grand-jury effective, and to this end we shall assist in the

How far will this possibility of assistance go? That point should be thoroughly tested by the attor neys of the Citizens' Safety Committee. They should offer their services to the Circuit Attorney in such a manner that he will be compelled to accept or give a positive refusal. Messrs. Ferriss and Kent are the legal representatives of a strong citizens' organization formed for the sole purpose of assisting the author ities in running down fraud and nunishing election offenders. That is their special mission, and in a measure they

represent the people in this work. Circuit Attorney Zachritz cannot re fuse the help of the attorneys of this organization without publicly admitting that he does not want an honest and vigorous prosecution of the election cases. Such refusal would be a slap in the face of the committee. The Circui Attorney should be driven into a public avowal of his intention. The committee will then know what to expect and how

SAN FRANCISCO, Cal., Dec. 28.—Ex-Senator James G. Fair died suddenly at the Lick House at 13:20 this morning. Senator Fair has been in poor health for some time, suffering from asthma. A few days age he caught cold while going out in a raffestorm to view some of his property improvements at North Beach. The cold did not apparently affect his lungs, but settled in his kidneys. Last evening he was feeling better than for the past few days, and his death was entirely unexpected. Senator Fair was about 64 years old. His only son, Charles, whom he disinherited a year ago, was with him at the time of his death, a reconciliation having been effected a short time ago.

Senator Fair was born in Ireland and was United States Senator from Nevada. He made his fortune in the Comstock Lode, and was a member of the famous Bonanza form of Flood Macker. Fair & O'Brien. He

The many admirers of the late Patrick Sarsfield Gilmore, the great bandmaster, than whom no man was ever more popular in St. Louis, will be glad to know that the organization which Gilmore kept in the front rank of the country's bands for so many years still lives and bids fair to regain the prestige it lost so rapidly after the old leader's death. It was thought at that time the name of Gilmore would be sufficient to hold the mambers together, but it was found otherwise. Leader Reeves, who was the Irishman's successor, was a failure, and the band dropped out of sight until this season, when Victor Herbert, the violoncelle virtuose, was put in charge of it. He has been astonishingly successful, and the series of Sunday concerts which have been given in New York under his direction have been features of the saxophone soloist, who for nineteen years was connected with Gilmore, has written to the Post-Dispatch, speaking in the highest terms of Mr. Herbert.

TOWAUX'S PROMPT ACCEPTANCE A SUR-RINE TO SCHAFFER'S CONQUEROR.

News.

Frank Ives' offer to concede any expart 1,000 points in 6,000 was according to Abs Levy, his backer, a "statement" and not a proposition. Maurice Vignaux has had many years' experience at the particular style of play which Ives now practices, and even it nothing else he is at least his equal. Although the Frenchman's average of 75 in 600 points made in Chicago Nov. 20, 1835, has been eclipsed in recent years by the use of the anchor nurse, it must be held as the record in the system which Ives follows to-day. Ives is practically playing the game at which Vignaux has been the premier for years, and he has not yet reached the average of 75 which Vignaux established nine years ago. It is true the young Napoleon may shrewdly consider the result of a long sea voyage upon a man whose irritability is so well known as Vignaux, according to the sense a marked contrast between the two, but it is doubtful if the Frenchman's habits of life have not given him rather an advantage uver his youthful opponent. Schaefer has frequently admitted that Vignaux is the master of all billiard players. Carter, no mean judge, holds the same views, and Catton, Slossen, Daly and all the veterans declare that the great French player's powers are undimmed either by age or personal habits that would render him uncertain or unreliable in a contest with any one. It is possible, therefore, that viewing the sweeping challenge sent out by Ives in its phrases? If there is, hen he owes it to himself to promptly meet Vignaux's offert to play for \$16,000 a side at the odds of 6,000 to 5,000.

HART'S NEW SCHEME.

Base Ball Pleyers Should Be Made t

gets in endeavoring to recognize some player or trying to locate a man who is on the team, but whose position has been changed from that signified on the score-card. The plan suggested to Mr. Hart is very simple it is for every man on the team to have a separte number, which he shall keep throughout the season. He shall wear the number conspicuously, as is done by participants in an athletic contest. Naturally, the regular men on the team should wear small numerals, extra pitchers, catchers and other substitutes taking the numbers from ten upward. On the score-cards the names of the players, with their numbers, shall be printed; and in this way the spectator can readily identify any player on the field. Frequently men are changed about during the game or some entirely new substitute is put in, and the crowd has no way of knowing who the new man is.

The plan for returning to the old pitching distance has one powerful foe, however. That is Capt. Anson. The Chicago manager returned yesterday from his hunting trip in the South. "No, sir, I am not in favor of returning to the old pitching distance, has one powerful foe, however. That is Capt. Anson. Who looked as brown as a Texas cowboy. "The public doesn't want it. It may be harder on the pitchers, but it has helped the batting, and that's what the people want. No, the scores haven't got too big, and there is no desire to return to the old 2 to 1 scores. What the public wants is lots of batting and running, and the games haven't grown too long, either. A man never kicks about a show being too long after he has paid his way to get in. He may object about its being too short, but too long-never! Now, for selfish reasons, I should like to return to the old pitching distance, for the rule would help my pitchers, but for the good of baseball I am not in favor of it."

President Kerr of the Pittsburg club says that neither Cleveland, Chicago nor Pittsburg will open the season at home in 1896. It is not apparent how President Kerr knows so much about the matter, for nothing has, as yet, been done toward making out the schedule. One thing can be taken for granted—that he has intimated to "Uncle Nick" his desire to have the Pirates open the season in St. Louis. His players will go South early in the spring, and will remain there until it is time to jump into the opening game, so that they will stand no chance of catching cold in the North after training in the South.

Why John Mooney Falled to Ride Simmons Christmas Day.

Jockey John Mooney returned from Chicago, suffering from a severe cold, which he caught while riding Simmons in the handicap at Roby on Saturday last. Owner Tom Walsh expected him to pilot Simmons in the Christmas handicap at Roby, but Mooney was unable to leave his room, and Baliard got the mount in his stead. Simmons ran a better race on Saturday than his owner expected he would. "Walsh backed him all three ways." said Mooney, "at 10, 4 and 2 to 1, and won a tidy sum, when I landed him in the place. However, he lost the winnings and a good deal more besides when Simmons falled to even show on Christmas day. Baliard got pocketed and cut off, so Walsh told me, and I can't account for Simmons' poor showing in any other manner. When I was on him Saturday the track was deep in sand and full of holes, but he galloped over it with his usual speed and stood a hard drive all the way down the stretch. He may have had underpinning, but I just think he would lose Dungarven on a hard track."

Simmons is carded to carry ill pounds in the Lake Shore handicap at Roby to-day. Among the other probable starters are Dungarven, with 129 up; O'Connell, 115, and Gascon, 169. Mooney may ride Simmons.

There are two things pretty certain in the Kneebs case, in the estimation of horsemen. One is that Kneebs will never cross the ocean to stand trial for his alleged ringing business, and the other is that the German Government doesn't want him to appear for trial. By the laws of Germany Kneebs could get but a six months' sentence, provided he was proven guilty, and in case he was acquitted he would have a grand opportunity to make the Berlin Trotting Association pay dear for the four months' incarceration which Kneebs has undergone. Still further, in case of forfeit of a trial on Kneebs' part, the German Government will be in the \$2,400 which Kneebs put up as bond. And in connection with the above case, "green" horses won't stand much of

President Kerr of the Pittsburg club says that neither Cleveland, Chicago nor Pittsburg will open the season at home in 1885. It is not apparent how President Kerr lenows so much about the matter, for nothing has, as yet, been done toward making out the schedule. One thing can be taken for granted—that he has intimated to "Uncle Nick" his desire to have the Pirates open the season in St. Louis. His players will go South early in the spring, and will remain there until it is time to jump into the opening game, so that they will stand no chance of catching cold in the North after training in the South.

President Von der Ahe should get a move on himself. Baseball players are being picked up and dropped into their respective grooves for the coming season. Cincinnati has corralled five catchers for a starter, and should have some phenomenal back-stop work out of the pick from Spies, McFarland, Vaughn, Murphy and Merritt Murphy, it is said, will be traded, and Vaughn will be played on first base while in reserve. Other teams are being strengthened. The Browns need two good batters.

KASTERN TURFERN.

Empire State and New Jerresy. The Fair Grounds track is a desirable piece of racing property, and its value will be greatly increased if the absence of book-making and pool-selling kills the sport in New York. According to the report now in circuistion the Easterness would run the track as the western end of the big Jockey Club, providing they are able to secure control of it and racing is killed around New York City. Of course if the New Yorkers were to give St. Louis a taste of really high-classed racing the change would be a welcomed one, but the Fair Association directors recognize the value of their plant and are not liable to let outsiders come here and make money out of it. The spring meeting this year yielded 35,000 in profits, and with proper management there seems little doubt but that better results will be obtained next year. The East St. Louis Jockey Club peoperty not so very long ago, but the proposition never got any further. As it now stands, the Fair Grounds is believed to be worth at least 1,500,000, and the Fair Association's entire liabilities are between \$500.000 and \$500,000. Besides the race meeting, the annual fair also produced a handsome profit, and these carnings are now being utilized in improving the property. In addition to being re-elected for another term. innual Banquet of the Association at the St. Louis Club.

The local Yale Alumni Association held its annual banquet at the St. Louis Club Friday night. Mr. Truman A. Post presided and officiated as toast-master. Mr. H. S. Potter spoke on "The Alumni Association of St. Louis," Judge Elmer B. Adams responded to "The Yale Spirit" and Mr. Wallace Simmons handled "Yale Athletics," defending Capt. Hinkey of the Yale Football team from the charges of brutality made against him. Mr. John D. Davis, President of the local Princeton Alumni and one of the few invited guests, spoke on "Frinceton." Mr. Wm, Maffitt and Charles Skinker also responded to impromptu toasts. The annual election resulted in the choice of Henry S. Potter, President, and Mark Ewing, Secretary.

NEW YORK, Dec. 29.-The coal barge towed from Boston to Baltimore and were caught out in the storm. The steamer Santuit was towing them. The storm increased in fury, and as they got out from the shelter of the Long Island shore a tremendous sea was encountered. Finally, in the storm and the night and the angry sea the barges broke loose from the Santuit and from each other. The Ring Leader was prvided with sails and with great difficulty managed to reach port. The Captain said that the last he saw of the Seth Low her sails has been blown away and he fears she has been lost. Yesterday the Santuit was reported as having arrived at Delsware breakwater. She was at once ordered to sea in search of the Seth Low.

SLIM ATTENDANCE.

The meeting that was to have been held Friday night at the St. Louis Real Estate Exchange by the St. Louis delegation to the next State Legislature had to be given up, as only seven or eight members-elect responded to the call. It is said that some of the representatives were dissatisfied with the apportionment of offices, which accounted for their absence Friday night. The meeting had been called to discuss measures of interest to St. Louis, with a view of having the St. Louis delegation work together in the coming session in all matters concerning the weifare of the city.

Miss Seymour's Report.

Miss A. Victoria Seymour has made a report of the entertainment for the benefit of the Homeless Newsboys, which shows that the receipts from all sourcess amounted to 3396, and that the expenditures were 3167.50, leaving a balance of 385.50 still unexpended. The number of newsboys assisted to proper clothing for the winter was 300. Of this number, fifty-seven were furnished full suits of clothing, while the others had their scanty wardrobes replenished sufficiently to keep out the cold. In addition to this, each newsboy was given a little bag of candy to gladden his Christmas.

Miss Seymour further states, in her report, that the 35 claimed by Prof. Hanneman, whom she says she contracted with for 316, will be paid him out of the balance if he still demands it from the fund raised for the homeless wairs.

Miss Seymour also extends thanks to those who so freely contributed to the success of the entertainment.

Receipted bills are submitted with the report.

W. P. Howland & Co., Canadian Grain Dealers, Have Lost Heavily.

TORONTO, Ontario, Dec. 28.—W. P. Hewland & Co., one of the largest firms of grain dealers in Canada, has decided to so into liquidation on account of heavy losses. Two years ago the firm had a surplus of over \$200,000. Now it is stated it has nothing, and writs have been issued against the company on judgments it is unable to satisfy. Sir W. P. Howland, ex-Lieutenant-Governor of Ontario, is the head of the firm. His partner is L. A. Tilley, son of Sir Leonard Tilley, formerly Financial Minister of Canada.

SPRINGFIELD, O., Dec. 29.—A post mortem in the body of John Kline, who died on Wednes-lay night, showed that the lower portion of his heart had turned as hard as stone. The emotions in women are largely influenced by the ovaries, and the ovaries are in turn decidedly influenced by the emotions. Professor Skene, one of the most distinguished authorities on Diseases of Women, states that grief, fear, anger, and even great joy are capable of arresting menstruction.

* * * "In order to maintain harmonious action of the whole organization wit is necessary that the ovaries shall "exist in full development and functional activity. On the other hand, these "lorgans, which are essential to the well-"being of the individual, must, when diseased, exercise a potent influence in "deranging the brain and nervous system."

These facts go to prove conclusively that a very large proportion of the cases of insanity in women could have been prevented by careful treatment of diseased ovaries. It is also very probable that many cases of insanity could be perfectly cured by careful and systematic treatment of the diseased ovaries.

Animal Extracts

Professor William A. Hammend has made the important discovery that the sterilized extract of the ovaries of the common pig contains the animal extract required to specially nourish the human ovaries and restore them to normal activity.

The use of Ovarine is of great value in the treatment of those nervous disturbances dependant upon ovarian irritation. It is to be recommended in—

1. Congestion of the ovaries.

2. Chronic inflammation of the ovaries (opporitis).

3. Imperfect development of the ovaries.

4. Neuralgia of the ovaries.

5. Amenorrhea, caused by ovarian derangements.

5. Amenorrheza, caused by ovarian derangements.
6. Chiorosis.
7. Hysteria.
8. Nervous prostration (Neurasthenia).
9. Sterility.
10. Irritability.

ACCOUNTANT'S STATEMENT.

"I have examined the books of the N. O. Nelson Manufacturing Company to ascertain the amount of capital invested and the profits of the business since 1867. The average capital of the last eight years is \$355,000. The capital is based on a fair valuation of assets; that is to say, it is not watered by any fetitious values. The Company has earned and divided in the same per iod over \$450,000, an annual average of over \$65,000. The company has earned and paid 7 per cent dividend for the year ending November 30, 1894. In the above mentioned period the company has never passed a dividend.

W. K. SPINNEY, Accountant, 421 Olive st.

We have during the present year erected one new factory (being the sixth new in full operation), and we have use for more. Our goods are fully established, from New York to San Francisco; and having now demonstrated the soundness of the profit-sharing system, we desire to promote its growth by adding new capital. During its career of eighteen years the company has enjoyed continuous prosperity, and is now one of the best organized and equipped concerns of its kind in the Union. The fact that it has during the past year of extreme depression earned and paid a 7 per cent divide: it is ample evidence of its steady earning power. We believe that no safer and better-paying investment can be found. The mutual interest of stockholders and employes (a large part of the latter being stockholders) gives assurance of combined business energy not otherwise secured.

The stock is offered to the public on the following terms: One-fourth at time of application; balance three, six and nine months, with interest—but total payment may be made at any time.

Wage-earning investors to whom we particularly commend this method of uniting labor and capital, may subscribe for one or more shares, payable 35 or over per share per month.

Applications and payments may be made at our office, Eighth and St. Charles streets, in person or by mail.

Livy Andrews was the prettiest girl in the piace. She had been engaged for some years to Herman Warton, a young lawyer struggling into practice in the city. The barber, who gets 5 marks for each visit, is delighted with the success of his treatment, and counts confidently on securing the much coveted appointment of hof-triseur, or hairdresser to the court. This will practically exhaust Emperor William's means of experimenting with his mustache. He has worn it in every conceivable fashion, curied upward and downward; long and close-cropped, curied and waxed straight, and as far as I can see the only thing that remains for him to do is to trim it down fine enough to resemble the long-drooping mustaches of the Chinèse mandarins.

Prince.
From the Philadelphia Times.

Primes.

At the present moment the finest pair of Royal mustaches in Europe in point of size and of volume are those of King Humbert, of Italy, which are snow-white, as is his hair. Although they are quite respectable in size, yet they are immeasurably inferior in that respect to those of his father, the late King Victor Emanuel, whose mustaches were so long that he used frequently to amuse himself by tying the extremities together in a knot at the back of his neck. Few people are aware that this mustache of Victor Emanuel was not brown or black as is generally imagined, but beautifully fair as was also his hair. On the morning of the battle of Novara he came to the conclusion that he did not look fierce enough. From that day forth his hair and mustache became darker, the artifice being recaled by the brown spots on his skin, he result of unskilful application of the re, which used to be prepared by his morninatic wife, the vulgar and incredibly ares Rosina. Hating as he did both bers and valeta, he often presented a hieal sight when he had been away from inta a week or two. CONQUERED HIS WEARNESS.

From the Louisville Times.

A Confederate soldier, after the battle of Antietam, and when his regiment was on the retreat, threw his musket on the ground, seated himself by the roadside and exclaimed with much vehemence;

"Til be dashed if Til walk another step! I'm broke down! I can't do it!" And he sat there the picture of despair.

"Git up, man" exclaimed the Captair.

"Gut to it." he replied. "I'm done for. Til not walk another step!

The Confederate passed along over the creat of a hill and lost sight of their poor, dejected comrede.

In a memons that was a fresh rattle of muskery and a renewed grash of shells. Buddenly he appeared on the creat of the hill, moving along life a hurricane and followed by a cloud of dust. As he dashed past his Captain that officer yelled:

"Hello Thought you wan't going to walk any more."

"Thunder!" replied the soldier. "Tou-den't call this walking, so you."

BUENOS AYRES, Dec. 22.—In a duel growing out of a political dispute. Col. Sarmiento killed Dr. Lucio Vicente Lopez. Dr. Lucio Vicente Lopez was a national figure in Argentine politics. He formerly was Secretary of Public Instruction, had also held for a short time the portfolio of Secretary of the Treasury, and as a publicist ranked among the most prominent in the South American hemisphere. His opponent, Col. Sarmiento, is the eldest son of Gen. Don Faustino Sarmiento, now fead, who once was the Argentine Minister of Washington and became afterwards President of the Argentine Republic.

The duel created a big commotion in Argentine. It was the result of the strife carried on at present between the two great parties in the political arena of the Argentine Republic—the "Liberals" (also mown as the "Mitristas"), and the Nadionalists (or "Roquistas").

Dr. Lopez was a Nationalist and a great friend of Gen. Roqua.

Increasing Testimony That Foliceman Hanson Is Not an Angel.

The case of Eugene Rowlman, the young profit clerk at Simmons Hardware Co., who was, it is said, illegally arrested and assaulted by Officer James Hanson of the Becond District in the vicinity of his home, 349 Nebraska avenue, on December 17 last, came, up for trial before Judge Morris at 10 a. m., but owing to the reported illness of Officer Hanson the case was again continued until Jan, 5 next. The young man is charged with being drunk on the streets. Since the publicity of Mr. Rowlman's complaint against Officer Hanson, the former has received words of sympathy from all sides. Only yesterday he received a letter from a man, whom ha does not know, who signs himself Frank Latal of 2516 South Broadway. Mr. Latal writes that Officer Hanson has given exhibitions of brutality in his neighborhood, and states there are only a few of the neighbors who have any use for him on this account. The author of the letter also suggests that Mr. Rowlman call and see him about Hanson's former alleged brutality, and mentions the name of a Mr. Brodhack, who, he says, is particularly disgusted with Hanson's conduct.

WIDENING EIGHTEENTH STREET.

Comptroller Sturgeon Doesn't Know Where the Money Will Come From. Mayor Walbridge this morning received an estimate of the probable cost of conan estimate of the probable cost of condemnation proceedings in the proposed widening of Eighteenth street, from Clark avenue to Pine street, from President McMath of the Board of Public Improvements. The estimate is practically the same as that furnished by Street Commissioner Murphy, the total cost being placed at \$250,000, of which the city's share will, he thinks, amount to from \$90,000 to \$100,000. Mayor Walbridge refuses to say what he will do with the ordinance now pending before him authorizing this improvement. Should he decide to sign it, he must do so before Tuesday, which is the last day. Comptroller Sturgeon says that if the measure becomes a law the money necessary will have to come out of the general fund. The fund for this year has been all empropriated, and he says that it is impossible to state how the amount can be spared in the future until the Collector makes his poort in January. There is no doubt, hower, he says, but that such an expenditure in materially lessen the chances of saving money for the completion of the new ore and other much agitated measures.

Crime in Brief.

The Court-bouse at Stillwater, Payne County, O. T., with all records, was burned by incendaries, presumably to save the life of a member of the old Dalton gang, on trial for murder.

Paul Metcalf, a fugitive since Angust, captured at St. Joseph Thursday, will be tried at Dillon, Mont., for killing Frank, Sutton, saloon-keeper. Floyd Cunningham, alleged murderer of J. G. Denton, waived examination at Centralis, Ill., and was held without ball.

The case of Montgomery H. Lewis, charged with embezzlement from the Lombard Investment Co., Kansas City, Mo., was given to the Jury.

"PHONY" MEN

The Old Dishonest Game Revived in St. Louis at the Christmas Crush.

past. In police parlance the miscreaut who perpetrates the theft or swindle is a "pennyweighter."

Years ago the pennyweighter with his stock of "phony" diamonds and jewelry of all descriptions was somewhat of a terror to jewelers and pawnshop keepers, but owing to the vigilance of the police and the managers of jewelry establishments, they were compelled to give St. Louis a wide berth. It is thought that some expert pennyweighter and his confederate took advantage of the excessive safety felt by the jewelers of St. Louis in the matter of being fleeced by the substitution of snide stones and so forth, and, coming to St. Louis, found an easy "mark" on this account. The pennyweighter's profession is such a lucrative one that his garb is beyond criticism. It is part of his profession to make a good personal appearance, so that in plying his vocation he will not attract suspicion. His craft has but comparatively few advocates nowadays. A decade ago it was overrum with experts, who have since taken to other lines of crookedness for a livelihood.

The game that was played in St. Louis is the only one which he can play in order to carry out his nefarious plan. There are kindred schemes in the swindling of jewelers out of diamonds and other articles which are sometimes employed by penny-

genuine mate to phony No. 2 and while doing so may insert phony No. 1 in the pocket of the tray. Diamond ring No. 2 is shoated over, and with a sleight-of-hand trick while the salesman is looking the would-be purchaser in the face, in conversation, the good ring finds a place in the pennyweighter's hand instead of phony No. 2. The phony ring, which is an exact counterpart, is looked at a little longer by the schemer, and at last he drops it into the tray beside its more valuable companions. The would-be purchaser makes some remark to the effect that he really does not know whether he wants a diamond ring or a watch and suggests that the salesman show him some fine watches. Immediately, and with ne little degree of anxiety over the prospective sale, the salesman replaces the rings in the pockets of the tray, only looking in see if there's a ring for each pocket. Than he hastens to show the pennyweighter the watches. By this time the pennyweighter has pocketed the genuine gems and he is ready to spend a little time looking at or buying a timepiece. He soon leaves far altesd of the game.

The substitution may not be discovered until some other prospective purchaser of diamends drops in, or until the stock is taken, which in all large lewery houses is done sither every twenty-four or forty-eight hours. In this time there have been any number of percens looking at diamonds who might have ring in the spurious gems, but the real fraud, because of his style, gentility and general air of respectability, is not thought of, much less suspected.

The phony rings are generally not altogether worthless, since the metallic part of them, in order to insure success in the transfer must be of gold. The sets, though dras only common glass artistically cit.

baby and this morning the baby died at the City Hospital.

Charles Mitchell lives with Martha McGowan in the rear of MI Carr street, and they had a little 4-months'-old baby that had been given by its mother to another woman and by her to them. Mitchell, who is a laborer, about 55 years old, says that when he came home to supper he found his wife preparing to go out. He told her he didn't want her running around with other men, and then in the quarrel that ensued she drew a revolver and fired at him.

Martha McGowan says that Mitchell

ensued she drew a revolver and fired at him.

Martha McGowan says that Mitchell drew a knife on her and she pulled the revolver in self-defense, but that he took the weapon away and fired at her.

After the shooting both left the house. Sarah Long and Martha's brother, Israel McGowan, remained in the room. About an hour later Sarah took the child up to baths it and found that it had been shot. She notified the police and had the baby taken to the City Hospital, where Dr. Marks found that the bullet had entered the abdomen and had gone clean through the body. He did what he could for the little sufferer, but only succeeded in keeping her alive about six hours.

Martha McGowan says the child was given her about three months ago by a Mrs. Gray, a white woman, with a colored husband, who lives on Thirteenth street, between Carr and Biddle streets. Mrs. Gray says the child was the daughter of Mr. and Mrs. Wm. Talbot, colored, who formerly resided in the rear of her home, but who went to Memphis a few weeks ago.

RIGHTS AND HONORS

Privy Council.

From the Chicago Record.

Sir Julian Pauncefote, the British Ambassador at Washington, comes back to this country invested with new honors and dignities. For within the last two weeks he has been created by the Queen a member of her Privy Council, an office which Carries with it no end of rank and prestige, and invests its holder with the right of prefixing "right honorable" to his name.

Among the minor prerogatives is the more or less recognized right of invitations to all court bails and similar state functions in England, not only for one's self, but for one's wife and daughters, provided they be presentable, while among the drawbacks must be considered the severe penalties which are entailed by the violation of the oath of secrecy and loyalty taken by every member of the council except those who are of royal rank. These latter are not sworn, but are merely introduced. At the formal heid at Windsor the other day, under the Presidency of the Queen, at which Sir Julian took the oath, Prince Henry of Battenberg was for the first time introduced.
